## **June 2023 Parish Letter from Fr Ben**

**On Coronation Sunday, at St Peter's church, Thurston, we held our Teddy Bear Zipline event. A zipline was installed from a window of the bell tower to the churchyard, with thanks to the Thurston Scouting Association for their ingenuity, with varying harnesses for various sizes of soft toys.**

**We had all sorts of toys whizzing down the zipline – bears, dragons, bunnies, dinosaurs, Minions, Chewbacca, Toad and Toadette from Mariokart, snakes, emus and the massive sheep from the St Peter's Church children's corner!**

**Many children and adults alike brought their beloved soft toys along, and there were refreshments being served by lovely volunteers. Perhaps an unusual way to celebrate the Coronation, but it was genuinely enormous fun! Money raised by the event will go towards our planned reinvigoration of the children's corner and a new space for older children/young adults, as part of our plans to upgrade our church. See details below of how YOU can help YOUR church achieve these things for the whole community.**

**A few children felt very apprehensive watching their beloved soft toys hoisted towards the bell tower. The look of uneasiness at separation between child and toy, the toy moving away from them to a place they could not reach – the checking with the adult with them, expressions that sought reassurance, "It'll be alright, won't it? They're coming back, aren't they?". The excitement of the toys whizzing back down to them, and the joy of taking the toy back into their arms, their little friend safe with them again.**

**Right from our very beginnings, our nature is one that cultivates caring, concern for the well-being of others, the desire to hold fast to the things that we love, our companions who comfort us. There is, between infant and their comfort toy, a confidence that if we are with a beloved companion, we can face anything – but if they're gone, then we're the ones who are stuffed!**

**As we grow, of course, we recognise that all we project onto our soft toys as little ones is present within ourselves, and that who we often really want to share care, love and companionship with is other people, our family and friends and perhaps a lover we want to spend our lives with. Perhaps experiences prevent us from feeling that way or make those relationships difficult.**

**But we often never forget those toys we had – where our natural instincts were to look after and be looked after, cared for – we desired presence, someone to be with us always. And we still do, deep in our souls.**

**Whatever word you might use for God; the Creator, the Universe, the Initial Cause, the Blueprint, the ‘Something’ – know that God is with you in all things, in suffering and joy. It may seem sometimes that God is far from us – recent times have not helped this! But when we look for Her, we too can come whizzing back to God, into arms outstretched, to be held, cared for, and loved.**

## **From a Gardeners Notebook, June 2023**

### **Fairs, Fetes, and Open Gardens.**

**We are now in the season of fetes and open gardens. There will be plenty to choose from in our own area. I once heard a lady prime minister say- “There is no such thing as community in England anymore”-. She certainly has never been to our benefice!**

**The word fair comes from two latin words – feriane and festum – meaning a gathering, accompanied by entertainment and merry-making. ( hopefully a sunny or rain free day helps too).**

**Support local events if you can; a great deal of work goes into such things by organisers, and stall holders may have planned and designed their pitch over a period of time. All these things keep our village life vibrant.**

**Open gardens are well worth a visit; most are open on Sunday afternoons. Up to twenty or more venues may be involved, but personally I like to visit up to six and look properly at them in turn. Colour – the most visual part of any design, will be evident in each. Plants are often for sale, as well as homemade cakes and the cup that cheers.**

**Further afield in our own area are many wonderful places to visit for the day – all very different. I mention just one or two.**

**Hyde Hall (R.H.S.) at Rettenden, near Chelmsford. Take the A12 to the other side of Chelmsford and then the A130 at junction 17 will take you to the garden. In recent times many thousands of trees have been planted. Wild meadows are also developing nicely. Improvements to the shop and plant centre are planned too. An ideal place to go if you have friends or family staying for a little holiday.**

**Audley End (English Heritage), near Saffron Walden. You will find it offers a wonderful garden, also a vegetable garden, and soon, also a scenic ride to your destination through beautiful Suffolk and Essex villages.**

**I am sure that your own garden is beautiful at present too: nature manages to catch up – it is a clever trick. Delphiniums and Paeonies will be in their glory, especially if you have staked and supported them in early spring.**

**Sit in your garden and enjoy the perfume as well as the visual experience – don't forget that drink – mine is a Campari!**

**Happy gardening, Mary**

## *One of my favourite things.....*

is having a good rant. Now and again I just have to spout off about something that irritates, annoys, bothers, or just plain gets on my nerves. Usually the rant is in private, or around a very good friend who, (I hope), won't be offended. This rant clears the subject from my mind, at least for a time.

But there is something that is bothering me, and it is getting worse.

I definitely have difficulty with electronic things that have buttons. Almost everything now seems to be electronic. I'm not sure that this is the right word, but I mean gadgets or tools -- any and all of those things that I did not grow up with and wish I did not have to have now.

I have always had a mild problem with mixing up letters and especially numbers. I get them upside down, backward, or exchanged completely. Normally this would mean that I occasionally ring the wrong number, and have to apologise to someone I did not want to talk to anyway, or that my chequebook wouldn't balance because I had entered two numbers reversed. Annoying, but not catastrophic.

Years ago, I inherited Jim's cast-off first computer. I did not want a computer. He insisted that I "would find it a great help, and it was so EASY to use." I disagreed. The discussion got a bit heated. I gave in. Big mistake. There were all these buttons, and every one had more than one function, none of which I could remember. So I was constantly flipping back and forth in the Instruction Book, or hollering for help from Jim when I didn't know what to look up so that I could do what I wanted to do.

A few week ago I bought a new printer. I have to print out most of my emails to be sure that I do not send them into NeverNever Land before I have a note of the information. I also do a lot of copying. I cannot scan. The printer can scan - I cannot. There is no Instruction Book. I

**am supposed to "look it up". What? Every time I want to scan I have to Google the company that made the printer to find out how to do what I do want to do? Does this sound familiar?**

**I have a SmartPhone. Wonderful thing. It can tell the time and weather any place in the world, compute the biggest numbers, answer any question ever asked, plot a journey, turn on the oven from miles away, even make a phone call. Not mine. Sometimes I can't even answer it. Most times I can't hang up after successfully (How did I do that?) making a call. I can only find Favourites when I DO NOT WANT THEM. I only want a mobile phone to carry in the car. I have a special button to ring the AA. It says AA right on the button. But I cannot turn the darn thing off when I forget and take it into Church. "\*&%£\$?? Opps, sorry. Here, can you turn this off for me? "**

**I cannot transfer money, even in the bank, because there are too many buttons and choices. I used to walk up to the counter where someone would greet me by name, and take care of my needs. No buttons, no choices, no nerves.**

**The fact that I am often treated as if this all happens (or not) because of my age REALLY grates. Worst of all is the feeling of incompetence I am left with. I didn't used to be incompetent. I just had a minor problem, relatively easy to deal with.**

**I understand that within 10 years we will all be using AI. I DO NOT WANT TO USE AI. I have enough trouble with My I, thanks.**

**Whew -- I feel a lot better now.**

**With love, Linda**

### **Coronation Fish and Chip Supper**

**The evening was a great success. The Village Hall was beautifully decorated for the Coronation Weekend. 76 people enjoyed the Fish, Chicken, Sausages and Chips prepared and delivered piping hot by Peyton Plaice. Quizzes and puzzles set by Annie Wallace and Tim Frost, and colouring pictures provided by Hui-Imm Clarke were great fun. Conversation was the main entertainment, and no one was in a hurry to get away.**

**Special thanks go to the Parish Council for providing the funds for the coffee, tea, soft drinks, and the Ice Cream Sundaes; Annie Wallace, whose idea sparked the event; Peter Turner, whose expertise and advice ensured that the evening ran smoothly; and to those who planned and manned the event: Peter and Sarah Robinson, Betty Holdgate, Hui-Imm and David Clarke, Kathy Drakes, Peter and Brenda Turner, Jill Davey, Cindy, Annie Wallace, Alastair and Claire Blades.**

**And, of course, thanks to all of you who came and enjoyed the Coronation Fish and Chip Supper with us. Linda Scoles**
